* MP: Melting point [°C], * AV: Acid value [mg KOH/g], *SV: Saponification value [mg KOH/g]

BEESWAX

Produced naturally by honey bees (*Apis mellifera*). Norevo sources beeswax worldwide and focusses on sustainable long-term trade relationships to support beekeepers in developing countries.

CANDELILLA WAX

Vegetable wax obtained from the leaves of the North Mexican candelilla shrub (*Euphorbia cerifera* and *Euphorbia antisiphilitica*). It is popular for its unique oil binding characteristic in cosmetic products.

CARNAUBA WAX

Vegetable wax obtained from the leaves of the Brazilian carnauba palm (*Copernicia prunifera*). Norevo is member of the Initiative for Responsible Carnauba and exclusively works with conscientious suppliers.

SUMAC WAX

A natural soft and pure wax coming from asian laquer tree. It is a traditional product mostly used for candles and cosmetics.

Halal-certified and kosher.
